RECD APR 9 1968

Dear Senator Williams;

My husband and I would like to strongly urge you to work for and to support any and all legislation which will result in the long overdue equalization of rights for the negroes. We have been very much in favor of this for some time, but to be honest about it have been too lazy to communicate our thoughts to you. In view of Dr. King's tragic death, it is obvious that many of us must overcome our tendency to leave the work to someone else.

We were sorry to read of your intention to leave public office within the next few years and would commend you on your fine record. We will hope that some of your final work will be to implement civil rights legislation.

Very truly yours,
