

Roger Horowitz interviewing James Newton clip 2

Topic: Working at the University of Delaware

[Dr. James Newton discussing the different treatment he received as a faculty member compared to his colleagues.]

James Newton: “My colleagues, Dr. Scarpitti and all of them, had to go to court, sociology, going to court! And I’m sitting there saying, he says “Professor Newton, have you ever been discriminated against by the University of Delaware?” That’s what I was asked. And guess what, I was in the College of Education, they gave everybody a raise but me. Does everybody understand me?”

Interviewer: We got that, yep.

James Newton: Now I’m not saying somebody discriminated against me, they just treated me differently.
