

Why Did John Mackenzie Do Nothing

**While Christina School
District Went Into
Financial Crisis?**

John Mackenzie Didn't Do His Job as a Christina School Board Member...

How Can We Trust Him To Do the Job In the Senate?

As a Board Member of Christina School District, John Mackenzie let Superintendent Dr. Joseph Wise lead the District down a path of insolvency and bad decision making – a path that led our local schools into financial crisis.

John Mackenzie's Record on Christina School Board:

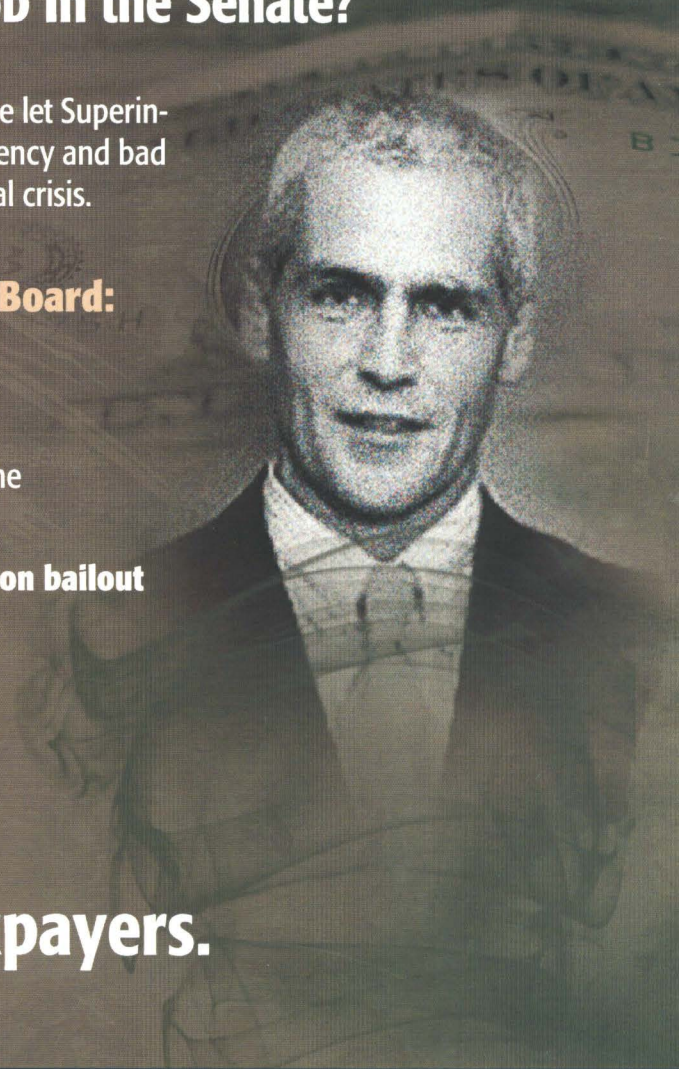

- * Joey Wise's most vocal supporter on the school board *
- * Turned a blind eye to bad accounting practices **
- * Allowed the hiring of 145 new employees – without having the money to pay them ***

In the end, Mackenzie's poor decisions led to a \$20 million bailout of the school district in May 2006.

Bad Judgment. Bad for Taxpayers.

State Senator
**Liane
Sorenson**
Strong. Effective. Independent.

When Christina School District went into financial crisis, Liane Sorenson worked with local administrators and parents to help save it. She supported the state legislation that kept our schools open – to make sure our children get the education they deserve!
